S. G. JAMIESON & SON.

Agent for
IMPERIAL OIL CO.

Winnifred.

Winnifred schools opened January 6th with a large number of pupils. The teachers reported nearly every one being present.

The ladies Aid will meet at the Globe Store on January 9th to elect officers for the new year. They expect to meet every two weeks from that date.

I. C. Freeman and daughter Myrtle went to Medicine Hat on Monday. Myrtle is attending school again this year in Medicine Hat.

Bill Parker is building a skating rink and expects to have it finished in a few days. Several hockey games have been played on the C. P. R. pond.

Mr. Jas. Larson is in Hardett on business involving the hardware. Mrs. Larson is in Lethbridge and Wetzkinwin visiting.

K. K. Bergan received a car of hay Monday and distributed it among the Farmers.

Mrs. Howard Platt is reported seriously ill with influenza in Calgary. Tapping was found necessary as a large amount of fluid has gathered on her lungs. Her many friends are anxious about her. No word came to-day telling how her condition was. Mr. Platt is also sick with the influenza but he is on the gain.

Geo. Frederickson of Lethbridge made a business to Winnifred on Jan. 4th, and visited Mr. and Mrs. Webster, who have charge of his brother Chris's farm, who passed away last September.

The U.F.A. held another business meeting Jan. 4th. They intend meeting regularly every Saturday afternoon.

Friends of Sarah and Catherine McDougall are pleased to hear they have entirely recovered from their sick spell of influenza.

Mr. La Marsh, J.P. has been appointed delegate for the U. F. A. to meet at Edmonton this month.

Miss Rosie Zorn returned to St. Theresa's Academy, Medicine Hat January 4th.

The United Farmer Women appointed Mrs. Will MacDonald Sr. and Mrs. L. C. Freeman delegates to meet at Edmonton.

Charley McDougall spent a few days in Winnifred recently buying cattle and hogs.

Mr. Alex. Smith left last week for Montana and K.C. expecting to remain until spring.

Mr. R. R. Harper has been transferred from the Union Bank of Winnifred as manager at Etchem to release Mr. Marsh for a short time.

Verna Castle returned to St. Theresa's Academy, Medicine Hat, on January 4th, having spent her vacation on the farm.

Mr. and Mrs. Radisher have sent their young daughter to St. Theresa's Academy for the year beginning January 2nd.

Mr. and Mrs. Alfred Larsen and Mr. and Mrs. Frank Baker were entertained at the Paul Buching house last Sunday. A very sumptuous dinner was served and the guests departed at a late hour voting Mr. and Mrs. Buching royal entertainers.

Mr. and Mrs. Jack Sherlock entertained at a waltz party on X-mas Eve. What was played until a late hour, after which a delicious turkey supper was served. Those present besides the host and hostess were Mr. and Mrs. L. Calloway, Mr. and Mrs. Frank Baker, Miss Bernice Seilly, Mr. Jesse Stevens, Mr. and Mrs. Hutchins, Miss Edith Hutchins, John Stevens, and Ben Johnson.

Buy a Fordson tractor.

"I HAVE PROVED"

Zam-Buk invaluable for eczema, both in the case of my baby and myself. Mrs. M. J. Bony, West. Ariz., N.S. She adds: "Baby's skin was really broken out, but cleared applications of Zam-Buk entirely cured it."

"In my own case, the eczema on my hands, which made it very inconvenient for me to do my housework. Particularly was this so, as it aggravated the trouble so to put my hands in water. By using Zam-Buk, it was not very long before every trace of the trouble had disappeared. I really think no home should be without Zam-Buk."

Zam-Buk is equally good for all skin injuries. All dealers 60c. box.

Zam-Buk

EDITORIAL

Wanted: A Community Spirit

When a Dominion or Provincial general election is called the country is all excitement and men of all parties throw themselves into the contest with whole-hearted earnestness and a determination to secure the triumph of one principle and policy which, in their judgment, are essential to the well-being and prosperity of the state. Even before an election is called, weeks and months in advance of such an event, public spirited citizens in all parts of the country are actively interested in the election, in preparation for the decisive day by the selection of wrong candidates and the perfecting of organization to secure their election.

Yet within recent weeks elections have taken place throughout the length and breadth of the three Prairie Provinces, in the outcome of which, in the vast majority of instances, little interest was displayed by the people, although the welfare of their homes and communities was just as truly at stake as in the case in Dominion and Provincial general elections.

We refer to the annual municipal and school board elections in the Western cities, towns, villages and rural municipalities. The men and women elected to these bodies are entrusted with the performance of duties in regard to matters of vital concern to all the people, matters which come more closely home to them, as a rule, than those of larger questions belonging to the provincial legislatures and Dominion parliament. Yet, except in certain isolated cases, where some local question of men or measures occasioned a temporary interest, these local "general elections" passed off without the people taking any particular or keen interest in them.

This is a tremendous mistake. These local bodies are, we repeat, entrusted with the most important duties and responsibilities, and it is just as important that the people should play a keen interest and take an active part in securing the election of

the best men and women—those most qualified to render a maximum of efficient public service—to these municipal councils and school boards, as it is that the best possible representation should be sent to the legislature or parliament.

However, the opportunity for the exercise of citizenship in this particular sphere of public duty is past and gone for a year. But the responsibility for taking and maintaining a lively interest in all the matters of the welfare of the local community, remains with all citizens. It is not a privilege, but a duty, to be vigilant and active in the selection of the only citizen body at election time which—although on such occasions it finds its most active expression—but it is a continuing responsibility throughout the year.

In other words, it is not sufficient to elect a given number of men, or women, to the municipal council or school board and then leave to them the whole burden of responsibility for the good government, in the community. They should be assisted in every possible way by an active and progressive community spirit, ever ready to assist in times of emergency, and constantly helpful with friendly suggestions of a constructive character. Criticism, too, is beneficial, provided it be of a constructive, and not destructive, character, designed to advance the general interest and not based on some petty grievance of the individual offering such criticism.

Many municipal and school districts, however, are themselves, are exceedingly difficult of solution owing to the fact that, very frequently, issues of a personal nature are thrust into the election, and the support of those who are particularly anxious of seeing that the best interests of all are served. Citizens should not be backward in telling their representatives know that they will have their hearty support in doing the right thing at all times, no matter how those may be treated upon whose feelings ruffled.

Many local by-laws, ordinances or resolutions are exceedingly difficult of strict and impartial enforcement, yet enforced they must be if law is not to be brought into disrepute and the general interest of the community suffer. For example, it is no easy matter for a rural municipal council to properly enforce the laws against noxious weeds. To do so arouses bitter feelings, yet such laws must be enforced for the common welfare of all. So, in many matters pertaining to the safeguarding of the public health. The cultivation by the farmer probably most made up for the decreased consumption of the civilian population. The fighting men had to have plenty of

The epidemic of influenza, which swept the country in recent months, points to the necessity of all people taking a deeper interest in the questions which lie at the very root of our well-being as a nation, all citizens should take the first step and make the same strong, material appeal to people that good roads, bridges, ferries, and other things which we have come to regard as "more practical" do. Nevertheless, a little serious consideration will contribute to the good health and sound education of the best foundation stones of a nation's strength and material prosperity.

The development of a healthy and active community spirit of good citizenship during this New Year will prove to be a valuable asset to any community. It will find expression in the rendering of real assistance to municipal councils and school boards, will keep a watchful eye on the attitude of the representatives elected a few weeks ago, will stand by those for support and re-election when the time of election again rolls around, and will leave little room for doubt when a change in representation is desirable and necessary. It will make for better administration in these public matters which come so closely to every home, and which, too often in the past, the people most concerned have neglected and allowed to go by default. Such citizenship will be never necessary again, as never before in this Western country with the many after-the-war problems which must be faced and solved, and the solution of which municipal and educational bodies will have no small part to play.

German Ambassador to Leave Spala
Madrid.—Prince Rathor is expected to leave Madrid with his staff of the German embassy, on the middle of January, and to take up his residence in Switzerland. The French government has already arranged a safe conduct for the party for the journey through French territory.

U. S. Lynching Record
Tuskegee, Ala.—Sixty-two lynchings occurred in the United States during 1931, according to records compiled by Tuskegee Institute.

Tax Question

Worries Germans

For Levy Will Show Allies Amount of Wealth Country Has
Washington.—Taxes designed to raise about eighty billion marks are planned by the council of the people's delegates, said an official report received from Berlin, following a Berlin dispatch to the Sud. Deutsche Zeitung. The report said that the new taxes would be levied on war profits and that a decision determining the rate of the tax would be published within a fortnight. In connection with the dispatch the Sud. Deutsche Zeitung observes:

"However legitimate may appear the principle of the tax, one cannot but consider with some anxiety the hurry with which the government is acting. The allied powers will surely suggest their demands when they are aware of the extent of our financial means and will lay hold of the sum in question. The result will be that our national credit will bring no profit to the state, and an increase in taxes which will fall on German citizens."

Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch! 1 2 1 3! This kind of rough talk will hurt less here in town if people troubled with corns will follow the simple advice of a well-known authority, who claims that a few drops of a drug called frezone when applied to a tender, aching corn stop sorrows at once, and soon the corn drops will be forgotten.

It says frezone is an ether compound which dries immediately and gives relief or even irritates the surrounding skin. It is a cure of a cure of frezone will cost very little. It is a cure of a cure of frezone will cost very little. It is a cure of a cure of frezone will cost very little.

Live Stock Shortage

European Live Stock Decreases Ten Times Total of Canada's

An enormous deficiency in the stock of food animals in the principal European countries occurred. In the past four years of war, during which period production was necessarily hampered, while consumption by the armies probably more than made up for the decreased consumption of the civilian population. The fighting men had to have plenty of

The estimated decrease in European live stock since the war, not counting Russia, Hungary, and the Balkans, is made up as follows: Cattle, 28,000,000; sheep, 54,500,000; hogs, 3,240,000; total, 115,000,000. In Canada, the live stock is estimated as follows: Cattle, 6,526,113; sheep, 2,374,300; hogs, 3,654,776; total, 12,555,189.

In other words, the decrease in Europe is nearly ten times the total live stock population of Canada. Countries like those mentioned in the list above, which figures are based on normal figures, are:

Beef, 1,077,514,000 lbs.; pork, 1,261,032,032 lbs.; butter, 45,795,264 lbs.; eggs, 19,080,850 lbs.

Canada, in the year ending in the fall of 1931, exported: Beef, 104,710,813 lbs.; pork, 140,934,503 lbs.; butter, 6,783,466 lbs.; eggs 3,861,489 dozen.

Riots in Constantinople Continue
Constantinople.—Disturbances at Constantinople continue and great fire have broken out in the Parkmakko quarter of Pera, across the Golden Horn from the city proper.

Internal parasites in the shape of worms in the stomachs of British children are their vitality and retard their growth. It is a constant state of affairs. The child cannot grow, and danger lies in the fact that the mother must suffer and the mother must suffer and the mother must suffer.

Number Killed at Mine
Amsterdam.—The striking miners in the Dusseldorf district have fought a pitched battle with the soldiers protesting the use of force. The results received here. The encounter resulted in several persons being killed and wounded before the troops finally surrounded and arrested the miners.

Prince of Wales Will Visit U.S.
London.—It is understood that King George and Queen Mary assure the President Wilson that the Prince of Wales will visit the United States during his coming trip to British possessions, according to a Paris dispatch to the Daily Mail.

Subs Offer Possibilities

Better Fitted Than Aeroplane For Arctic Exploration

Buffalo.—Vilhjalm Stefansson does not think highly of the aeroplane as an aid to Arctic exploration, although he says the submarine offers possibilities.

"The cruising radius of the aeroplane is very limited," he says, "so limited as to make it useful only for scouting purposes."

Trans-Atlantic flights have been made. It will be very dangerous for anyone to attempt to cross the pole, as a machine with a cruising radius of 2,500 miles will be required.

"Perhaps the submarine is better fitted for exploration. This vessel has a much greater cruising radius and a submarine crew could study the region by coming to the surface. There is always open water, a great deal of the summer time. Polar ice is mountainous, and make travelling rather difficult. The ice is seldom more than 120 feet thick, and a submarine could navigate underneath it without difficulty."

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Gray's Kidney-Exterminator to drive out the parasites.

Recall Japanese on Siberian Front
Tokio.—Japanese reservist troops on the Siberian front will be recalled, the war office announced.

Shock Left Her Weak and Nervous
COULD NOT SLEEP

When the system receives a shock of any kind, the heart becomes weakened, the nervous system is the appetite poor, faint and weak feelings follow. The system is not strong at night, and you wonder if life is worth living.

All those who suffer from nervous shock would best recommend Mother Gray's Kidney-Exterminator. It is a remedy to tone up the entire system and strengthen the weakened organs.

Mrs. J. A. Bunyan, Pilot Butte, Sask., writes: "I have used Mother Gray's Kidney and Nerve Pills after having suffered from nervous shock for a long while. I was so utterly weak and nervous I could not sleep at night, and my appetite was so poor. I could not walk across the street without trembling all over. I had hot flashes and fainting spells."

When I was on the second box of your Heart and Nerve Pills, I began to feel that they were doing me good, so I kept on until I had used six boxes, when I felt like a different person."

I can never without them in the house, and highly recommend them to all who suffer with their heart. Mother Gray's Kidney and Nerve Pills are sold at all dealers, or mailed direct on receipt of price to The T. Milburn Co., Limited, Toronto, Ont.

Italians Ready for Bolsheviks
Copenhagen.—Large forces of Italian troops are concentrated near Innsbruck, Austria, and, according to reports from Berlin, it is presumed the concentration is directed against Munich. The Berlin reports say that if Bolshevikism breaks out in southern Germany the Italian troops will occupy that region.

DR. H. TANNER DEAD
San Diego, Cal.—Dr. Harry Tanner, proponent of fasting for longevity, 94 years of age, died recently at a country hospital after an illness of nearly a year. It was announced. Dr. Tanner's application of theory that health and long life depended on long periods of fasting attracted attention a number of years ago.

More Canadians Coming

Fifty-five Thousand Troops Will Have Been Returned in January

London.—Sir Edward Knapp, minister of the overseas military forces of Canada, says that by the end of January 55,000 soldiers will have been sent to Canada. There are made up of 15,000 in November, 20,000 in December and 20,000 in January. These officers and men have been drawn from the various branches of the service in France and the British Isles. Of the 20,000 to be returned in January, 12,000 will come from France. After February 1, the rate of return to Canada will reach approximately 30,000 per month. It is understood that the British authorities have agreed to the demobilization of two divisions of Canadian corps at an early date.

Turks Favor Allies

Paris.—A liberal cabinet favorable to the allies has been organized in Constantinople. This action followed the recent dissolution of the Turkish chamber.

Internally and Externally It Is Good
The following characteristic article is taken from the "Electric Oil" in that it can be used internally for many complaints, such as colds, coughs, sore throat, croup, whooping cough, and all the ailments which have curative qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

Mobs Pillage Stores

London.—Pillaging on a large scale is being carried on by mobs in Berlin, Germany, and the authorities are powerless to prevent it, according to a Central News despatch from Amsterdam. Troops in the city refused to fire on the rioters.

CHINA'S PEACE TERMS

New York.—China will ask of the peace conference the return of Kiao Choo, former German-controlled provinces captured by Japan early in the war, and a readjustment of international trade relations to place China on an equal plane with other nations. Lin Cheng-Chiang, Chinese minister of foreign affairs, and head of his country's peace commission, declared on his arrival here on his way to Paris.

Minard's Liment Cures Distemper

Neutrals are Barred from Conference

Paris.—Allied representatives have decided that neutral nations will not be admitted to the peace conference, according to newspapers here. Neutrals may address their claims to delegations, however, and any demands made will be referred to a special body which will be created by the peace conference.

It has been decided, it is reported, that neutrals will be allowed to participate in the deliberations incident to the formation of a league of nations.

Canadian women are right behind the Canadian troops in the trenches

Avoid Harsh Pills! Doctors Condemn Them

Most pills unfortunately are harsh and drastic, they cause inflammation and great discomfort. Rather, the nature is the way in which they are made. Science has established nothing more satisfactory than a family pill than the old reliable pills of Dr. Hamilton's Pills are. Very mild and can be effective. And by the aged, by children, and indeed by men and women of all ages. No stomach or bowel medicine is more headache or biliousness is so effective, so mild, so certain to quickly cure as a 25c box of Dr. Hamilton's Pills.

Are Clearing Ostend Harbor

British Hope Vindictive Can Be Preserved as Memorial

London. — For some time there has been going on in the British Admiralty the important work of removing the obstacles left there by the British and also by the Germans before they evacuated the Belgian coast. The much progress has already been made by the director of the operations, Commodore Young, who is the naval adviser to the admiralty, that the vessels drawing 16 feet are able to pass at high tide between the piers up to the deep water quay.

No time was lost in making a start, says the Times. As soon as the Germans had gone a survey began, and within six days the British naval department, acting in conjunction with the civil engineer in charge got to work on the job. At the time, the writer visited Ostend Oct. 22, and wrote from personal experience—the only craft which could pass up the channel at high water was a tug-boat launch with a five-foot draught. The first step was to create a preliminary channel. The piers were to be cleared by right across the entrance and between this pier and the Vindictive a German trawler had been wedged. Further progress was made—perhaps 25 yards from La Flandre—two bucket dredgers were sunk on top of the other. The stern of the top dredger overlapped the other one, and fouled the channel. Alongside the deep water quay was a steam hopper barge, with her stern in the water and bows out. This had been sunk by our aircraft. Damage done to the lock gates had made the lock and its adjoining basin tilted, while within the lock gates another dredger was down. To complete their work the enemy had upset all the cranes into the basins or the docks, and to most of them mines had been tied.

After the arrival of the salvage officers and men with their plant, which included quantities of gelignite, the task of despoiling the enemy began. By cutting away the bulwarks of La Flandre an increase of 4 ft. 6 in. of water was at once obtained. Dredges and pile drivers were also removed, and there is now a wide entrance of 150 ft. with a depth of water at high water made. No attention was given to the dredgers, and the salvage workers cut off the stern of the upper one of the two with an oxyacetylene burning plant. This exposed the boiler, which was promptly plugged up and floated out through the hole. Other obstructions and mines were also cleared away, until a channel 70 ft. wide had been secured, and vessels drawing 16 ft. were able to berth at high water. It is now proposed to make the lock gates good, work which will be carried out by royal naval engineers, and to pump out the whole of the system. When this has been done the bucket dredger, cranes and any mines that may be there can be dealt with. Between the piers more of the paddle steamer will be removed, and the dredgers will be lifted by lifting cranes.

When asked what could be done with the Vindictive, Commodore Young said that, of course, it was not to be lifted, and that he could not be lifted, and the cement put into her, after it had been welded through the explosion, was a serious problem. He hoped, however, that it would be possible to remove a large portion of the ship, and then to lift the ship by means of compressed air. Considerable work is involved, and it could not be done in a short time. "If I think," the commodore said, "that she can be floated and brought to England." If

the cruiser can be salvaged there will certainly be a demand that she should come home again, and at some appropriate place be preserved as a lasting memorial of the heroic landing on the Zeebrugge Mole and the enterprise by which the lives of the German submarines were stopped.

Zeebrugge gives the salvage men a most difficult task that which they are handling efficiently and promptly at Ostend. Seven months after the great raid by Sir Roger Keyes, the block ships sank on the German's Day still closed the harbor to all craft, but small submarines and the smallest type of destroyers. When they had to go the Germans, at their leisure, directed other obstacles in the water. The little Brussels lies across the mouth of the harbor, and all sorts of other vessels, including an old submarine and destroyers, have been put down to give trouble. Work is to be started at once, however, and part of the operation will be the cutting off of the stem of the Vindictive at the deep water passage into the harbor. The docks at Bruges are in a bad state. Bombs and larger have been sunk, as it were, in a heap there, and it is probable that the whole of the harbor will be pumped out from end to end when the lock gates have been repaired.

Mine Sweepers Will Be Busy Have Worked Silently and Fearlessly

London. — British mine sweepers will have their hands full for some time in carrying out clause 24 of the armistice. The small fleet of sweepers associated governments shall be sent to sweep up all mine fields and destruction laid by Germany outside the coastal waters, and the positions of which are to be indicated by the Germans.

Throughout the war three mine sweepers have been doing, silently and fearlessly, a notable work. When the war began the British navy had 113 mine sweepers. In the early days the mine-sweeping operations of the enemy and the counter-mining of the allies were inoperative. The employment of a much larger number of vessels. As fast as possible, small craft of various kinds were put into the service. Around the British Isles alone about 700 vessels have been used.

Each month the mine sweepers have combed 46,000 miles of water. To do this they steamed a total of 1,132,000 miles.

In 1916, 21,000 mines were removed with a loss of fifty-one mine sweepers. In 1917, 45,000 mines were swept up and 89 mine sweepers were lost. In 1918, up to the end of September, 1,400 mines were swept up and 19 mine sweepers lost.

Car Among Neutrals Soldier Claims Former Royal Whole Family Escaped

Warsaw. — "There is no doubt that the car and his entire family had escaped from his house." A statement made to the correspondent by Michael de Tshibatchef, a Russian soldier who has just escaped from the Ukraine after a recent trip to Petrograd, Dvinsk, Vilna, and Rowno.

"I cannot reveal where the car is, because he does not wish it," he added. "He does not care to be bothered, and wants to be left alone."

"His whereabouts is known to an allied government. It is in a neutral country. Accounts of his murder at Ekaterinburg were manufactured by Trotsky and Lenin for propaganda purposes."

"It took much money and time and also the lives of many officers to carry out his escape." Adding: "The officers killed was Count Tshibatchef, the czar's former personal military attaché, who was shot instead of the czar. Documents describing the czar's escape were in the hands of German Count Koenig at Petrograd, who intended them to be killed."

M. de Tshibatchef said that the allies should send an army of occupation into Russia to re-establish a stable government and business conditions. He said the cost of living in Russia was appalling, a pound of flour, 1,000 rubles. Frequently, however, there was no food obtainable at any price.

Campaign Against German Goods
New York. — More than 700 New York stores are displaying the "No German-made goods sold here" signs of the American defense society.

The women's national committee of the society is conducting an active campaign against the sale of German-made goods in Greater New York. The stores have been converted and a boycott urged by personal work among customers.

A life of pleasure makes even the strongest mind frivolous at last—Bulwer.

Railway Work Most Important

Final Advance and Victory Aided by Canadian Troops

Ottawa. — Operations of the Canadian railway troops in the field were of the utmost importance in connection with the final advance, and summary of the work received by the department of militia deals with this feature of the signing of the armistice.

During the month of November the Canadian railway troops laid 308 miles of track, of which 150 miles was in the area evacuated by the enemy and necessary to aid in the advance for the forwarding of food and other supplies. It was necessary in that time to repair 300 miles of grade.

To perform this work there was a force of 6,783 men of the Canadian railway troops, aided by 9,980 men attached from other units, a daily working force of 16,763 men employed on railway work under Canadian direction.

In addition to this force there were employed for maintenance duties 1,139.

The care of narrow gauge lines required 1,231 men, for construction and maintenance, 1,438. In all a force of 20,661 was required to further the activities of the Canadian railway troops.

The report on the work for November comments that at the beginning of November, while the enemy was retreating very rapidly and was being hard pressed by our advancing troops, they yet managed to carry out very systematic demolition of railway lines in the rear. In this connection with this all the battalions of the Canadian railway troops, with the exception of the 1st, 2nd and 3rd, were concentrated on standard gauge reconstruction work for the month in the area between Le Cateau and Turoing.

Dealing with the action of the enemy, the report continues: "The enemy, in his retirement, used three methods in the destruction of railways: firstly, by the use of a track destroyer, which tore up the rails and bedded material in a strip of track in a manner that to relay the track it was necessary to remove the rails from the ties, lift the ties, take out the ballast and then relaying ties and steel and ballast."

"The second method was to blow out every gauge line in the rear. This was one end of each rail was damaged and before it could be used again it was necessary to cut and re-laid the damaged end. The third method was to place mines in the track at a distance of about one hundred yards apart. These mines, which sometimes took the form of heavy trench mortar or airplane bombs, caused large craters in the grade and the track and ties were destroyed. The craters were absolutely demolished."

"In some instances the enemy used all three methods, while in others apparently they used only one or two. One method. Continual difficulty was experienced with delay action mines. These were placed in the track at places, such as road crossings, bridge abutments, culverts, etc., and the repairing of the track and rebuilding the bridges entailed very much time and expense was saved by salvaging material from the mines. Temporary shuntments were placed and freight trains made to receive the shortened riders, the remaining part of the spars being made up of timber."

The report mentioned that all the spars in the required standard gauge lines have been completed up to the destroyed lines in the track recently occupied by the Germans.

Ukrainians Murder Poles

Also Russian Officers of Former Imperial Army

Warsaw. — Northern Ukraine bands are now threatening the town of Kovel. They have already taken Lutsk and Rowno, murdering, wherever possible, the Polish land owners and the Russian officers of the former imperial army.

In the town of Berezov, the Ukrainians shot officers upon entering the town and took 100 prisoners. Later they killed these prisoners and threw their bodies into the river.

The military forces of General Petlura, reinforced by bands, are estimated at from 30,000 to 40,000. They are dressed in Russian uniforms and carry German rifles. The Ukrainians are working towards Galicia, and there is likely to be a serious conflict with the Poles over the possession of Lemberg and the land occupied by the Ruthenians.

Petlura owes his early success to the partial neutral attitude of the Germans. He has promised protection to the Jews from pogroms.

Montreal Daily Star.

OF ISRAEL

WHAT SOLDIERS WANT.

A suggestion to those who are sending gifts to soldiers overseas, come from Lt.-Col. (Canon) Frederick George Scott, Senior Chaplain of the British Expeditionary Force, received by friends in London. "The men want playing cards and chewing tobacco."

"Ever-lastingly Good"

SUNDAY SCHOOL LESSON

LESSON FOR JANUARY 12—MOSES THE DELIVERER

While the oppression of God's people was heading up, in the providence of God a deliverer was being prepared to take up the task at the opportune hour. Moses was first trained at his mother's knee, then in Pharaoh's court, and finally under his immediate hands in the desert. The latter was an indispensable part of his training. This learning in the wisdom of the Egyptians was helpful, but without the immediate tutelage of God he would have been a failure. All who are used of God must spend some time in the retirement of his presence. Two notable examples are Paul in Arabia and John on Patmos.

1. The Lord Speaks to Moses in the Burning Bush (Ex. 1-6).

It was while keeping the flock of his father-in-law in the desert that the Lord appeared to Moses. Had he remained in Pharaoh's palace he never could have had the vision of the burning bush. This bush enveloped the people of God enmeshed in the very fire of God, or God dwelling in the midst of an elect people. Moses steps aside to behold this strange sight, but must be taught the essential lesson of the proper approach to God. He now can approach God with boldness through Jesus Christ (Hebrews 10:19). Our God is a consuming fire. No evil can be permitted in his presence (Josh. 7: Aet 5). The Lord did not leave him long in suspense. He told him he was the God of his fathers, the covenant God. As soon as he knew it was God who was speaking to him he hid his face. The sight of God always causes sinful men to hide (Isaiah 6:5).

2. Moses Commissioned as the Deliverer of His People (Ex. 7-10).

In the preamble of this commission God said to Moses: "I have seen the affliction of my people." This is a beautiful promise (Psalm 22:24; 34:6; Isaiah 63:9). "I have heard their cry." Not a cry ever goes up from a child of God unnoticed by him. I have come down to deliver them out of the hands of the Egyptians." This shows that God is actively interested in the life of his people. He graciously obligates himself: (1) To deliver them out of the hands of the Egyptians. (2) To deliver them from all manner of sin and bondage; the oppression, a type of sin's bondage; and Pharaoh, a type of the devil. God delivers his own.

Release Merchant Tonnage

Washington. — All American merchant vessels of 4,000 deadweight tonnage or less, requisitioned by the United States Government and not now required for purely military purposes, were ordered released by John A. McDonald, assistant secretary of the War Department. The order affects about forty vessels and becomes effective upon arrival of the ships in an American port. The vessels released are all freighters and formerly were engaged in the coastwise, West Indian or South American traffic.

Exercise, temperance, fresh air, and needful rest are the best of all physical charms.

"Just as fresh and dainty as when packed in the hamper."

PARA-SANI WRAPPER

Heavy, waxed paper in Household Rolls, with handsome oak Roller Box. Keeps sandwiches, cakes, cheese and butter fresh and wholesome. There is no messy mass of pickles and cake, tomato juice and sandwiches in the picnic if each article is wrapped in Para-Sani.

Para-Sani is also good for household uses. It keeps bread fresh and moist until eaten. It protects meat and butter from contamination of flies, bad air or germs. It is good for lining cake tins or for polishing iron.

Para-Sani will save many times its cost by preventing waste.

Cheaper and more convenient than waxed paper in sheets, and the paper is of better quality. Ask your Dealer.

Both Had Dugouts

Hindenburg and the Kaiser Used to Run to Shelter

Spa, Berlin. — The former headquarters of the Kaiser and his general staff is disclosing some extraordinary facts these days about the men who engineered the world war. Take for one, Hindenburg, Germany's super-man, around whom rumors of invincibility have been written, disclosing him as a fearless Napoleon leading his troops to victory. As a matter of fact, he spent a great deal of time in a wonderfully constructed "funk hole," or dugout, underneath the grounds of his villa here.

Spas, it may be noted, is almost on the German border, and so far from where battle lines used to be that it was almost a day's journey in a fast motor car to get within sound of the big guns. The Kaiser, too, had a similar hiding place at Neudeck, near a comic opera trench system, about which he is said to have paraded for the benefit of motion pictures. At each of their villas there were elaborate electrical instruments which would set up furious buzzing whenever a great war was approaching, and where near. At the first sound from this contrivance Hindenburg and the Kaiser used to run to shelter, it is reported. People who worked about Hindenburg's establishment said that he was continually running for cover.

The dugout itself was luxuriously equipped. On the floor was a heavy flowered carpet and a Louis XV. table and chairs added to the artistic arrangement. The walls, which were of corrugated iron, were painted white, and the whole place brilliantly illuminated by electricity. On a little table was an electric fan to keep the marshy cool in summer, while an electric stove provided for heat in the winter. The room was about 14 feet long and was protected by four to six feet of earth above it.

The emperor's dugout was similar except that it was much deeper underground and there were two entrances, one through the villa and the other from the grounds. The main entrance was through the villa and led down a long flight of steps.

Another tunnel to the picture was added when a German newspaper of Aix-la-Chapelle told the correspondent of the Associated Press that the crown prince spent virtually all of his time in this subterranean.

Exercise, temperance, fresh air, and needful rest are the best of all physical charms.

To the REVIEW.

Farmers Should Advertise.

And thereby have 1000 chances in a thousand and not just 1 chance in 1000.

The wide-awake and intelligent Farmer of today is like the "Up-to-date" Merchant, keenly alive, to the immense advantages of Advertising owing to the vast territory covered and the great numbers of people who see the Advertisements; for instance over 1000 people read the "Bow Island Review".

Only a few days ago, the writer had proofs of the value of advertising, had means only been used.

Quite casually two men met in a store and in a little while they were conversing about this fine mild winter and next year's Crop prospects; then one said he had lately bought a gang plow in place of a sulky he had formerly used, for although the sulky did good work, it was not fast enough for him, he wanted to plow two furrows at a time instead of one furrow; he then turned to walk out, the other man then called out "say, would you sell your sulky to me and how much would you want for it".

The result was, a price was fixed and a time stated to see that sulky; here you see only one prospective buyer out of a possible 1000 buyers if that sulky had only been advertised in the "Bow Island Review".

An Up-to-date farmer like the progressive merchant, they both look around and see Machinery and Goods of every description, which would much better pay them if turned into Ready Cash even at a reduced price, than to be lumbering up the place and doing no one any good.

You personally, can be sure that there are always Buyers if the Goods are right and the Price is right; the point is, to let the Buyers know of it; therefore "ADVERTISE", this is sound business advice.

The writer, the same as you here have more food for thought in the following: our attention was drawn to many Farmers living in and around our District, who have spent much time and money on raising Turkeys, Geese, Chickens Etc, but they did not Advertise and so were compelled to keep their stocks or sell them to the Chinese Restaurants at "lowest prices" whereas had they only spent \$1.25 they would have had a whole month's Advertising which would at the very least have brought those prime Turkeys, Geese, Chickens etc. to the attention of Hundreds of Housewives who were already looking for extra special fare for Christmas and the New Year and were quite anxious to pay "good prices for good Goods" Here we see Hundreds of possible Buyers and Sellers totally unconscious of one another's needs, each one might just as well have been in Africa, for all they knew of one another's good Bargains missed and much good Money lost, all for want

BANK OF MONTREAL

of \$1.25 for a whole Month's Advertising.

The moral is clear, let other people by the hundreds, know that it is you wish to Buy, Sell or Exchange by Advertising in our "Review" and get better prices for everything you have to sell, no matter what it is.

If you cannot Sell by Advertising, you will rarely do so by not Advertising.

"He who would in business rise, Must either bust or advertise."

So all come along and see us, we will give you a hearty welcome, for we are always glad to see our "progressive Farmers".

Put your Advertisement in the "Bow Island Review" to be seen by over 1000 readers of this paper and so have 1000 chances in a 1000 to get the results you wish.

We give lowest prices, Courtesy and prompt attention even to the smallest order, we value and appreciate your business, so come in and let us quote you a price.

Maleb.

Mr. Clifford Sewell returned home from Rediff for Christmas.

Ben and Charlie Burger are reported to have had the flu, but are now up and around again.

Alf and Stewart Reynar spent Christmas at Mr. and Mrs. L. Sum's.

Max Geldreich and family spent Christmas at Mr. and Mrs. Bert Saunpou's.

Mr. and Mrs. Norman McKnight were callers at A. Geldreich's last Friday.

Tom Hart, Art Neil and his two sisters, and the Misses Geldreich moved to the Hat to do some Christmas shopping.

Reggie Neil and his sister Ellen were callers at C. E. Henry's on Sunday last.

John Bojars and Robert Geldreich have left to work at Medicine Hat.

Remarkable Talent.

San Carlo Grand Opera Co. at Medicine Hat.

By a fortunately arranged traveling schedule Medicine Hat is to be included in the trans-continental tour of the San Carlo Grand Opera Company, the only one of three persons, entirely established opera organizations devoted to touring. Grand Opera upon the scale of magnitude and beauty for which the San Carlo has been known ever since it was organized by Mr. Henry Russell, is an event which deserves a welcome that should leave no doubt in the minds of music-

lovers as to its popularity and cultural benefits.

A remarkable array of big talent is displayed in the San Carlo forces which travel by special train and number one hundred people. The venture here should meet with only the highest success, as the organization enjoys the unique distinction of being the only one of its character that exists by public favor alone.

Medicine Hat will have two of the most popular works in the repertoire of the San Carlo. "Faust" and "The Merry Widow" in the afternoon, and Gounod's ever popular "Faust" in the evening of Thursday, January 16th. Two different and distinct casts of principals will be put forward during the company's brief visit here.

Manager Finlay is receiving and filling the advance mail orders now. The regular public seat sale opens Friday, January 16th.

Town of Bow Island sued for \$5000.

Frederick W. Brown, former police magistrate, Bow Island, has commenced action against the town of Bow Island for falsely arresting him on December 18th.

Mr. Brown, formerly and Claudrick, lawyers of Calgary have been retained for the prosecution.

Notice of writ has been served on Mayor, Reid and Police-constable Duffy of Bow Island. The action will probably be heard at the Supreme Court sitting to be held at Lethbridge towards the end of February.

Mr. Brown is claiming damages of \$5000.

ANNOUNCEMENT

BIBLE LECTURES presenting GOD'S PRESENT DAY MESSAGE will be delivered, just opposite Railway crossing, each evening, except Saturday and Sunday nights.

First lecture, MISSIONARY TRAVELS AND EXPERIENCES will be given Wednesday, Jan. 14 at 7.30 p.m. COME and follow the speaker as he traces on the map his journey on five continents and around the world, showing how our Lord's great prophecy that "This gospel shall be preached in all the world for a witness unto all nations and then shall the end come" (Matt. 24, 14) is rapidly being fulfilled.

Some oriental costumes represented. Bring your friends. Admission free. Remember time and place.

General Gaida Destroys The Bolsheviki Third Army

Vladivostok. — In capturing Perm in the Ural Mountains, General Gaida, at the head of Czech-Slovak and Serbian forces, has completely destroyed the Bolsheviki Third Army, from which he took 31,000 prisoners. General Gaida's troops captured an armored train, from which Nikolai Lemine, the Bolsheviki premier, was directing operations in the region of Perm. Lemine himself escaped, but several members of his party were taken prisoners.

The exploit of General Gaida in capturing Perm parallels his success in the campaign of last summer. His superiors opposed his plan of attack against Perm, and he carried out the operation at the risk of removal from his command. The bulk of his force was made up of Siberian troops, but he had two regiments of Cossack and his army.

In addition to the 31,000 prisoners reported, General Gaida captured 5,000 railway cars, 120 field guns, 1,000 machine guns, 20 automobiles, an entire engine transport, several hundred tanks and several thousand horses. His maneuver was a complete surprise to the Bolsheviki as proved by the fact that he captured several prominent Soviet leaders at the headquarters of the Bolsheviki army. Ten Bolsheviki regiments are reported to have been annihilated and the rest of the enemy army was driven across the Kama river. Troops of General Semenov, the anti-Bolshevik leader in the Chita district, have occupied Vladivostok, on the Siberian railway east of Leningrad.

Two hundred thousand Russian soldiers released from German prisons are expected to pass through Amak within a fortnight. The Russians are destitute and in a serious condition from exposure and lack of food.

Leaders May Be Released

Sinn Fein leaders in England Expected Freedom

LONDON. — The release of all the Sinn Fein leaders in England is expected practically at once. Count Plunkett, one of the Sinn Fein leaders elected to parliament in the recent balloting, already has been released.

Count Plunkett has been one of the most active participants in the recent Sinn Fein movement for several years past and has several times been under arrest in connection with British authorities. His son, Joseph Plunkett, was one of the men executed for participation in the Easter Revolt in 1916. He is also the father of John Plunkett, who was condemned to death for connection with this revolt, but whose sentence was commuted to ten years' penal servitude. The occasion of his last arrest was the government roundup of Sinn Fein leaders in May of this year.

It was announced that evidence of an Irish plot with German connections had been discovered. Three other Sinn Fein members of parliament were arrested at this time. Among others arrested was Prof. Edward Wallace, a member of the Sinn Fein organization. He also was a successful candidate for parliament in this month's elections.

May Cause Some Delay

Three Members of Italian Cabinet Resign

Paris. — The resignation of three Italian ministers may delay the opening of the preliminary peace conference until Jan. 15, according to the Echo de Paris. In addition to Leonida Bisolatti, minister of military and war pensions, Signor Baroni, minister of education, and Signor Baroni, minister of public works, are said to have left the Orlando cabinet.

Announcement of the resignations of Leonida Bisolatti from the Italian cabinet was made recently, but it was not reported that two of his colleagues had joined him in his retirement.

German troops in barracks, the minister stated, are being moved to points where they will be able to combat Bolshevism, but he did not believe there was any real danger from the Bolsheviki movement.

Copenhagen. — Dr. Karl Liebknecht was given a sharp defeat in the Spartacus congress at Berlin, according to advice received here. Dr. Liebknecht advocated participation by the Spartacus element in the election of members of the national assembly on the ground that the party might be able to influence the composition of the assembly.

Rosa Luxemburg, one of the Spartacus leaders, replied in a violent speech, declaring, amid thunderous applause, that the national assembly must be prevented at all costs.

Dr. Liebknecht's proposal was rejected by a vote of 22 to 23.

German troops in barracks, the minister stated, are being moved to points where they will be able to combat Bolshevism, but he did not believe there was any real danger from the Bolsheviki movement.

Copenhagen. — Dr. Karl Liebknecht was given a sharp defeat in the Spartacus congress at Berlin, according to advice received here. Dr. Liebknecht's proposal was rejected by a vote of 22 to 23.

Documents Were Burned

History From German Viewpoint Will Be Published Soon

Paris. — All the correspondence of the former German emperor which was kept at Potsdam has been burned as well as a number of documents dealing with international questions, according to a statement made to a correspondent of the Mail by Karl Kautsky, who is preparing a White Book dealing with the origin of the war.

Kautsky said that the book would contain all diplomatic documents bearing on the war from the assassination of Francis Ferdinand to the invasion of Belgium. It would be in three or four volumes and the first volume will appear within fifteen days.

Paris. — Karl Kautsky, who is in charge of the preparation of the German White Book, informs French newspapermen that the report that a German crown council had been held on July 5, 1914, to decide finally on the question of making war was incorrect. The former emperor, Kautsky said, had a conference on that day with a small number of prominent Germans, and it was decided to support Austria in her demands on Serbia.

Alles Will Investigate

Berne. — An inter-alleied commission charged with the investigation of the food situation in German-Austria has left here for Vienna.

Bright Future for Nations

Advantage Possessed by Canada Is Ability to Expand

Ottawa. — A high note of optimism in regard to the ability of Canada to face the problems peculiar to the period of reconstruction or readjustment was sounded by the Hon. A. K. Maclean, acting minister of trade and commerce, and chairman of the reconstruction committee of the Dominion government.

Mr. Maclean believed the only problem Canada would have to face was that in connection with the demobilization of the army and the war workers and their return to civil employment and in this he foresaw no difficulty if the Canadian people approached it with courage and unselfishness.

A great advantage possessed by Canada which would stand her in particularly good stead in her present situation was her ability to expand and absorb. In the four years prior to the war, from 1911 to 1914, the annual immigration to Canada had averaged 360,000 per year, while for the four years of war up to March 31st last, this figure had dropped to 99,000 per year and that was a high average.

Villages in Northern Russia Captured by Allied Force

Archeangel. — An allied force composed of Americans, Russians and Poles, advanced 14 miles southward along the road bordering the Onega river. They met considerable resistance from the Bolsheviki, but captured some of the towns and villages and did not stop until they had taken the village of Gogol.

Starting from the village of Kaleva, American forces took the village of Priklad, where there is a large monastery. They continued the advance, but fighting. Sleights are being used to transport the allied soldiers.

The advance, the first attempt of the winter, was carried out under semi-Arctic conditions, and in the few hours of daylight which obtain in this region. The village of Gogol is approximately 70 miles south of the town of Onega and about four miles west of the frozen swamp which forms the allied positions along the Volga railroad.

The road along which the allies advanced is the main line of communication of Volodga and crosses the railway line at an important strategic centre from which the Bolsheviki have been operating. An important factor in the fighting was taken by a Russian naval brigade which has been sent by the Americans and British naval officers.

The Polish troops who participated in the fighting distinguished themselves in the early days of the fighting. The Gogol is a Drina. The Poles and Russians are filled with hatred for the Bolsheviki and neither ask nor give quarter in combat.

Britain Provides Ships

Doing Everything Possible for Return of American Soldiers

LONDON. — Great Britain is doing everything possible in providing ships to take American soldiers back to their native land, according to an official statement, which reads:

It will be remembered that the British furnished ships for the conveyance of nearly 60 per cent. of the American army to Europe. Having been assisted in the assistance in this direction, the British government is now doing all it can to assist in the repatriation of American soldiers.

The repatriation of Dominion forces from Australia, Zealand, Canada, India and South Africa, the conveyance home of large numbers of Chinese coolies and other native labor battalions, through a very heavy burden on British shipping. While this is the paramount duty of the British government, especially as many Dominion troops have been absent from home for four years, Great Britain is out to give all possible assistance to the return of the army back home. Since the signing of the armistice, shipping for the repatriation of American soldiers has been increased.

It is hoped to carry in January from 30,000 to 40,000 American soldiers in British ships.

Huns Continue Intigue

Continued use of German propaganda literature written for the purpose of creating dissension among the entente allies and the United States concerning the question of freedom of the seas, have reached Switzerland since the signing of the armistice. A large amount of it had been confiscated but the German agents continue their work and are spending many millions of marks.

The demand for Canada's animal products during the reconstruction period will be very great, or greater than the demand during the war, according to those in touch with the situation.

Armistice Agreement is Menaced By Hun Trickery

Paris. — M. Michon, minister of foreign affairs, told a special commission that the reason why France was not demobilizing faster was that the allies might be obliged to renounce the armistice. No reasons were given but it is assumed that the allies are dissatisfied over Germany's apparent reluctance to deliver the required rolling stock. She is supposed before January 16 to furnish 5,000 locomotives and 150,000 cars in good condition, but on December 16 she had furnished only 206 locomotives and 9,000 acceptable cars. The German administration seems to be trying to satisfy the allies by delivering dilapidated stock, but the French reconstruction commission refuses all cars which have not been put in good repair within three years.

The Germans complain that these refusals make the fulfillment of the armistice impossible. The French reply that this is more chicanery, for it is known that the German verification service is extremely particular and that the Dresden, Munich and Essen works turn out thousands of cars a day. They add that the Germans have only one car in the French army of the oldest they have. If the Germans fail to keep the terms of the armistice, the allies may decide to advance still further into Germany.

Saskatoon The University City of Saskatchewan

(2) Grand Trunk Pacific train to enter the city of Saskatoon on October 7th. (3) W. P. Hinton, Vice-President and General Manager Grand Trunk Pacific. (4) A street scene in progressive Saskatoon.

Abandoned on Rocks British Stand Is Determined

President Wilson Acquainted With Views on Peace Terms

LONDON. — There is to be no official statement of any kind given out with respect to the conversations between President Wilson and the representatives of the British commonwealth, but it is known that they took place in a spirit of extreme cordiality and to the great satisfaction of all taking part in them.

The discussion, which began in Buckingham palace and continued at the prime minister's residence, Downing street, was carried on by Lloyd George and Mr. Balfour on behalf of the British nations. As a result of preceding conferences between the representatives of the British Dominions, the British case in its broad outlines, as it is to be submitted to the allied peace conference, had been defined and it was thus possible for the British prime minister and foreign minister to submit to the president with frankness and in considerable detail the essential features of the peace settlement which is desired by the British nations.

Many Leaving Canada for England

Toronto. — Local steamship officials report that aliens are leaving Toronto for Europe at the rate of a thousand a month and hundreds more are to book passage but cannot obtain accommodation. A large number of Englishmen, both soldiers and civilians, with their families, are going back to England.

National Unity Accomplished

Bucharest. — The mission of the Transylvanian government, sent by the national assembly of Rumanian Transylvania to hand King Ferdinand the pact of union with Rumania, was received in Bucharest with great ceremony by the government.

The mission was acclaimed by the popular assembly of the city of Bucharest. King Ferdinand received the deputation and was handed the document containing the pact of union by the Transylvanian foreign minister.

The king declared he was obeying the will of the Rumanian people in accepting the mandate to reign over the region from the Danister to the Thes. Festivities were held in Bucharest to celebrate the occasion. During a dinner given by the Rumanian national league, the president declared the league dissolved now that national unity had been accomplished.

W. J. OLIVER, Proprietor.

Local and General.

Mr. and Mrs. F. R. Parker of Calgary are visiting their daughter, Mrs. H. S. Beattie. Mr. Parker has but recently returned from France, where he served for three years with the 60th Batt. During that time, when some of the heaviest fighting of the whole war occurred, he naturally had some lively experiences, although upon each occasion he escaped without a scratch. One occasion he recalls with especial vividness when the enemy bombed our hospitals and where he had a very narrow escape. Another time he was standing talking to a group and had just moved away when a shell came and wiped out the whole bunch. Notwithstanding what he has gone through, however, Mr. Parker says he would not have missed it for anything. He made his return trip to Canada in the Olympic, for which vessel and its commander he has nothing but the highest praise.

Divine service will be held at All Saints' Church on Sunday, January 10th, at 11 a.m. and 7.30 p.m. respectively.

It is stated that owing to our mild winter steps are being taken by the railway companies to run excursions from the coast, in order that the residents of these inland regions may have the opportunity of recouping their health in Alberta's sunny clime.

Inquiries have been asked as to where and what Lieut. Whitney is doing since leaving here in the middle of September. In five days he was on board bound for England. Since arriving there he has been scouting on the coast at Sheerness and now at Frinton, east of England, he is flying one of the fastest scout airplanes named Camel, which goes at a speed of 200 miles per hour. Now the war is over he is expecting to get home before many months and has signed papers to that effect. Lieut. Whitney was to spend his Christmas holidays in Ireland.

The members of the M.W.A. are requested to attend a meeting of the Lodge to be held on Monday, January 20th, in the L.O.O.F. hall.

A meeting of the Bow Island U.E.A. will be held on Saturday evening next, January 11th. Subjects of vital importance to every member will come up for discussion.

R. K. Beattie is trying to make arrangements to hold a school some time during February or March for the Fordson tractor. Anyone desiring to take the course should hand in his name to Mr. Beattie without any delay.

A meeting of the ratepayers of Sarnford S.D. will take place at G. E. Thomas' on Tuesday next to elect trustees. Messrs. T. B. Hands and G. E. Thomas are the present trustees.

Whilst driving his car in town the other day a driver sustained a sad accident through the blowing out of his tire. And his condition was made worse by the thought of having to buy a new one. He was considerably relieved, however, when he was told by a friend that he could have the old tire repaired for a few dollars at the City Vulcanizing Works, Bow Island.

Fred Dulmage of Fort William, Ont., stopped off here a few days this week visiting his uncle, A. F. Dulmage, whilst on his way back from the coast.

Quite a few applications have already been made to the Municipal District of Bow Island for seed grain. Others requiring seed should make their requirements known to Mr. Vertis as soon as possible.

The Women's Institute will hold its annual meeting in Bow Island on Saturday, January 10th. A meeting of the executive will be held in the rest room at four o'clock on Monday next.

Mr. E. Murray has so far recovered from his recent illness as to be able to walk around this week.

The Review is requested to draw the attention of parents to a number of boys and girls who have been using the rest room the past week or so for purposes other than reading or quiet enjoyment. Considerable annoyance has been caused by the littering of the floor with papers and magazines, and on several occasions the heater has been left in a red-hot condition surrounded with papers. Parents are requested to warn the children to behave themselves whilst using the rest room and to leave things in a tidy condition.

A meeting of the Bow Island Masonic Lodge will be held on Tuesday night, at 7.30. Brethren are requested to notice that the election of officers takes place on this night as well as other important business and a big attendance is desired.

Mr. and Mrs. H. E. Beattie, who have been suffering from the flu, are reported to be much better.

The resignation is gazetted this month of Frederick W. Brown as police-magistrate. Rumor has it that one of our prominent residents has been given the refusal of the office.

The annual meeting of the Bow Island Board of Trade will be held in the L.O.O.F. hall on Monday evening next. An urgent invitation is extended to all residents to attend, as the election of officers will form an important part of the proceedings. The citizens of Bow Island should need no reminding that a meeting of the Board of Trade is the exact place where parliament is met out to the whole, *gratia* for the worthy, and the

The Kaiser said: "Me and Gott rules the world. But the Kaiser didn't say that he held a monopoly on repair parts for Fords."

"Look" for those who deserve it. If you know of any that deserve this better chastisement don't fail to present your case.

The lifting of the "ban" by the Local Board of Health is perhaps the chief and most important event of the past week. Our residents may now go to church (and we trust the desire to go expressed by many around town will remain good), lodges may be visited, and indications are not wanting to show that every other organization is making efforts to relieve last ground. Whilst the lifting of a good many residents for the lifting of the ban has been complied with the Board would earnestly remind all that the danger is by no means over and the utmost precautions are just as necessary now as at any time.

To this warning of the Board of Health the Review would also raise its note. Many towns and cities have

paid a severe penalty for undue license after the lifting of the ban, and it is hoped that the residents of Bow Island will for some months at least protect themselves and those who surround them as far as possible.

There is always the danger when full liberty is at last restored of a certain portion of the public going to the extreme in holding dances and entertainments. And it is here where the great danger lies.

The Board of Health has lifted the ban and by its action has signified its intention to now leave matters in the hands of the people themselves.

If the ban is not to be resumed common sense and prudence must prevail and it remains with every single resident by taking the necessary precautionary measures to see that the present satisfactory state of affairs continues.
